I bring you my Keurig Kold review in this episode! This is a soda machine that uses Keurig Kold pods to make sodas, teas, mixers, sports drinks, and other cold drinks on demand, right from your home. There is no CO2 canister to mess with, and no syrup bottles either - the magic is in the pods, which contain the syrup needed for the Keurig Kold Drinkmaker to make your drink and have it come out nice and carbonated. I'll let the video do the rest of the talking - check it out to see the Keurig Kold in action, and find out if it can make a great glass of homemade Coca-Cola.
